

# LIVE PRODUCTION –FOOD TUCK

Link Of My Website:

**SSL and HTTPS enabled**

Production: <https://food-truck-ruddy.vercel.app/>

Staging: <https://food-truck-staging.vercel.app/>

Please check out

<https://food-truck-ruddy.vercel.app/>

for better experience

**Performance optimization:**

```
<img
  src={food.imageUrl}
  width={312}
  height={267}
  alt={food.name}
/>
```

# LIVE PRODUCTION –FOOD TUCK

**Monitoring tool I use here is: sentry**

npm install @sentry/nextjs

```
const { withSentryConfig } = require('@sentry/nextjs');

/** @type {import('next').NextConfig} */
const nextConfig = {
  reactStrictMode: true,
};

const SentryWebpackPluginOptions = {
  silent: true,
};

module.exports = withSentryConfig(nextConfig, SentryWebpackPluginOptions);
```
